

What We Do... We create unique video from your photographs with an artistic vision. Video from Pics uses Hollywood-Style transitions and special effects that pan, zoom, and rotate your images that will Bring Your Pictures To Life. All synchronized with your music.

Your Finished Video Will Include... Adapting your digital images, printed pictures, 35 mm slides, video clips, music and captions, to create your personalized DVD video. We create videos that touch the hearts of all who watch!

Our primary focus is picture and video preservation in a quick and easy playback format. We create a unique photo montage video from your photographs. Viewing your pictures, as a video, can be entertaining as well as nostalgic.

We use a creative format known as video montage. This involves creating videos containing several still photographs (normally from prints or 35mm slides) and short video clips, that are all set to background music.
